Moderator - Liz Stevenson

StudyTXT messages- Each individual message ordered costs 0.50 cents per message . Code for ALL messages in a group is at 0.50 cents for the 1st msg and 0.30 cents for all other messages-> e.g. 4 messages in total = .50 cents + 3 X .30 cents = $1.40 (instead of $2 if all four were downloaded on their own)

Download a PDF file of the message list below for your computer or to print out and use.

The questions have been grouped into sets of 2-4 messages. This does not overload the SIM card or memory on your cellphone and allows you to study a small group of messages at a time. It is also more economical to download.

Work with other students in your course and co-ordinate what messages you download and forward them to each other to reduce costs. Use the small gaps of time in your day (waiting for a bus, traveling to School, etc.) to 'snack on study' with the StudyTXT messages.
